A Sustainable City

A sustainable community meets its current **economic, environmental** and **social** needs without compromising the ability of future generations to do the same.

Creating a Sustainable Community

Sustainable City Plan

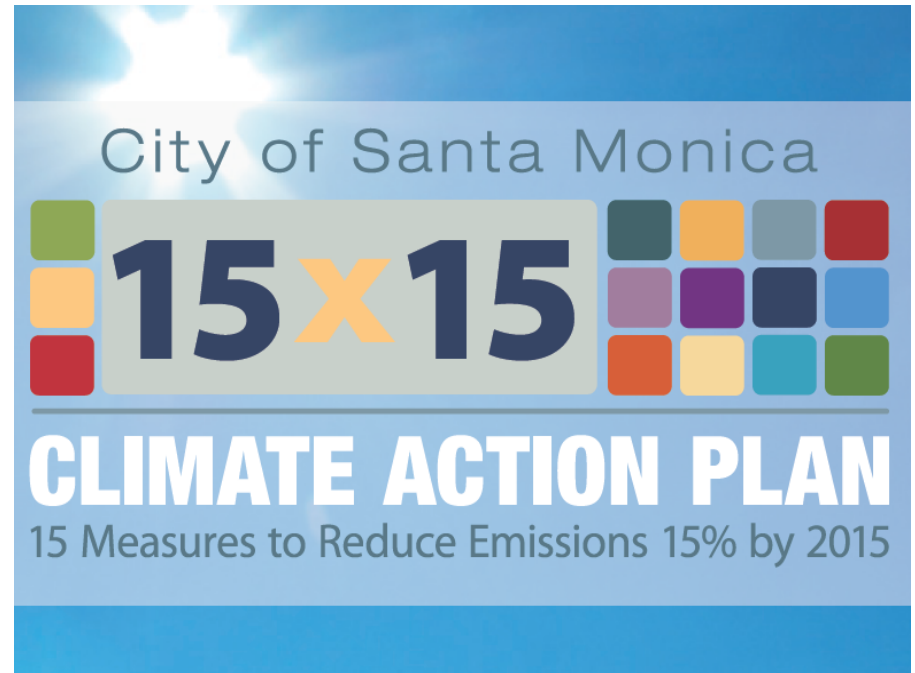

- Adopted in 1994
- Performance indicators
- Data driven policy tool
- Comprehensive approach
- Recently updated with targets for 2020

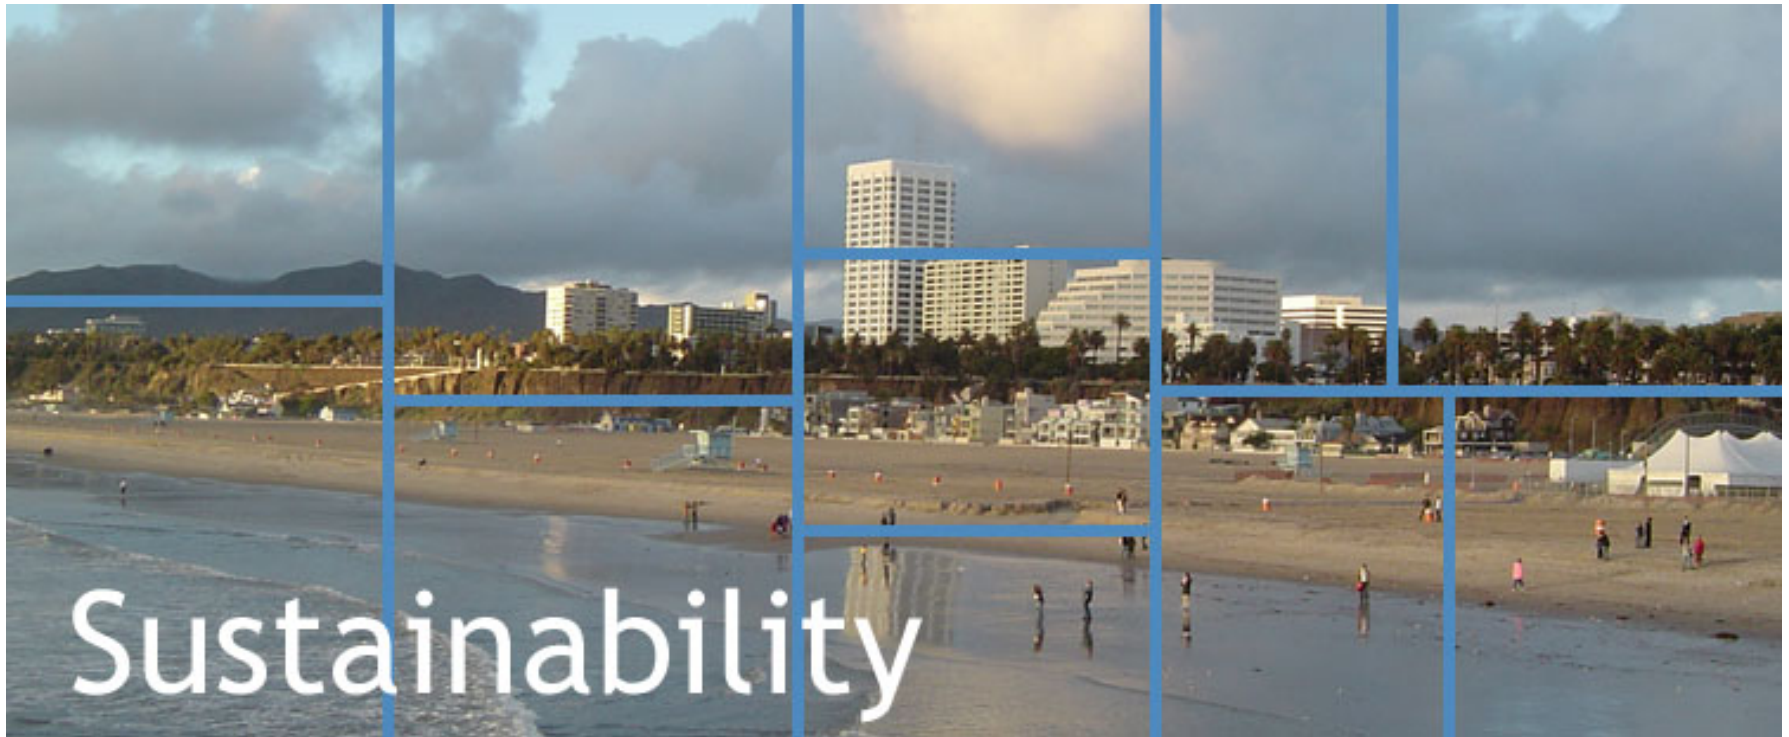

Climate Mitigation

15X15 Climate Action Plan

- 15 measures
- Completed by 2015
- Reduce emissions 15% below 1990 levels
- Currently 14% below 1990 levels
- Need 29,000MTC reduction to reach target
- Community emissions
- Includes adaptation

“All is connected... no one thing can change by itself.”
-Paul Hawken
